GROWN AND FOR SALE BY

**The E. GILL NURSERY
COMPANY**

San Pablo Ave., North of University Ave.
WEST BERKELEY, CAL.

On March 25th, 1909, Edward Gill, the founder of The E. Gill Nursery Company, passed from this life. For over half a century Mr. Gill had exploited every phase of the nursery business—all of which was for him a labor of love. He was peculiarly adapted for this work, on account of his great reverence for anything beautiful in Nature.

Those left to carry on his business, appreciating the heritage of an honorable name, will make it their aim to maintain strictly the high standard of business integrity that was proverbial with Edward Gill.

Entrance to our Nurseries

Introductory

In presenting our new catalogue for the ensuing season, we beg to thank our customers most gratefully for the steady increase of our business, and to assure them that our best efforts will be put forth in their interests.

It has been our aim to give but a brief description of the stock grown on our grounds. We trust that the simple and systematic arrangement may be convenient for our patrons in making up their orders.

In both the fruit and ornamental, as well as the rose department our Nurseries are completely up -to-date. We endeavor to procure as soon as introduced every novelty, whether in America or Europe, that promises to be of special merit. We take pleasure in drawing your attention to the fact, that our roses have received first prizes wherever exhibited.

It is our constant aim to supply only the best stock and at the lowest prices consistent with the quality of goods offered. The stock on hand for the ensuing season is larger and in better shape than ever before. We invite personal inspection at our West Berkeley Nurseries. These are located on San Pablo avenue, directly north of West Berkeley. They can be reached from Oakland or Berkeley on the San Pablo avenue county line cars, which pass the grounds every few minutes. They are also of easy access from San Francisco.

Patrons should give addresses distinctly and state by what mode of conveyance they wish their goods shipped. After delivery to the forwarder, all articles travel at the purchaser's risk.

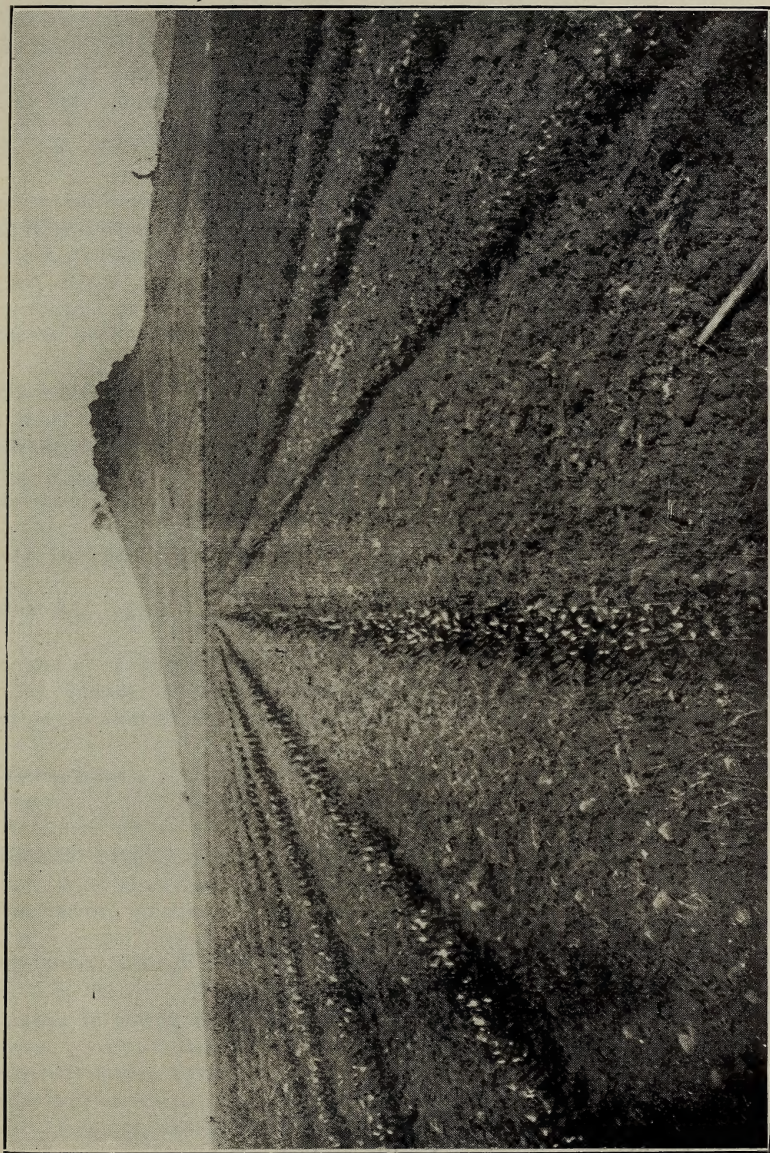

All plants and trees will be carefully packed and delivered on board steamboat or railroad free of charge.

Remittances may be made by check or draft on San Francisco, Oakland or Berkeley, or by postoffice order or express order on West Berkeley.

Letters requiring any information will be promptly answered.

Roses

For many years roses have been a specialty with us, and we believe at the present time our collection is second to none on the Pacific Coast, having added all the new varieties of merit to our already large collection, and have spared neither time nor expense in keeping the same up to the standard. Our plants are all large, grown in the open ground, and cannot fail to give satisfaction.

NEW AND RARE ROSES.

We herewith give a list of the varieties which have bloomed with us during the past season, and all are of exceptional merit—many of which are now offered for the first time.
